Recording

As a working arts venue our three performance spaces are able to accommodate for all AV requirements for recording and production. We can provide technical support for both live and staged recording.

Each space comes equipped with the following facilities for use:

- Full PA and onstage monitoring
- Projector and projection screen
- Front of house desk and monitoring
- Stage lighting and lighting desk
- Technical support and guidance

“We were thoroughly pleased with the final production, the venue was the ideal place to host the recording, many thanks to your excellent support team” Mike Hall, BBC

We are also able to offer the facility of live audio recording. Yellowfish a Sussex based mobile recording company are able to deliver on the day recording and production for competitive rates.
